Todd's First Trip to Lae

Todd took his first trip to Lae recently to buy supplies for the Store. He and another Papua New Guinean Store worker traveled the 3-4 hour drive from the mountains down to the coast to spend the day shopping. They stayed the night and the next day finished the shopping and returned home. Now the store has flour and eggs, among other things.

We are thankful for his safe and successful trip. Things are a little unknown in the country right now as we are in the process of an election. Such circumstances can make the travel difficult with many people campaigning on foot and it can also be a little dangerous as outcomes of the elections may spark hostilities.

Praises and Prayer Requests

- Todd's health has been good, however, he is struggling with a lot of low back pain. Please pray for healing.
- The kids start school again on July 18. Please pray for good connections with the new kids returning from furlough.
- Please pray for homeschooling and educational therapy. Please also pray for the possibility of Cathy working with some other students in need of NILD.
- Praise that our crate arrived!

Summer Break!

The kids have been enjoying their time with new friends this summer. They have also been riding horses at Pony Club.

Unfortunately, both kids have been diagnosed with asthma since we arrived due to all the allergens, mildew

and dust in this environment. We've been able to do some deep cleaning in the house and reduce some symptoms and the clinic has been very helpful with information and resources.

Both kids would agree that the beautiful sunshine and the time they have to play here outweigh the health concerns. They've been enjoying the outdoors.

NILD Level I Training Complete

Cathy was able, through God's gracious provision, to travel to the Philippines and complete the Level I training for NILD. This training will allow her to provide the educational therapy that Alyssa needs.

Please pray with us as Cathy considers taking on some other Uka students who are in need of the program as well and also pursues returning to the Philippines next summer to receive the Level II
