## Official Store Manager

Todd officially became the store manager in October. In the weeks just before he took on the role, the goods distributor that the store receives international items from burned to the ground, the bridge that makes it possible to transport things into Ukarumpa was impassable due to disrepair and Todd was in Cairns, Australia getting an MRI on his back. It's been a bit of a stressful transition, but he is learning the role.

### Praises and Prayer Requests

- Praise God for a successful trip to Cairns, Australia and the good diagnosis on Todd's back.
- Please pray for continued healing in Todd's back.
- Please pray for the details of running the store. There are a lot of cultural hurdles and Todd needs wisdom to navigate them.
- Please continue to pray for wisdom and resources as Cathy works in therapy with Alyssa and the other student at the school.

## Cairns Medical Trip

Both of us were able to fly to Cairns, Australia for Todd to receive an MRI on his back. God graciously provided all of the costs including airfare and medical expenses as well as providing friends to watch over the kids while we were gone.

The results of the MRI demonstrated a herniated disk in Todd's back and explained the pain he's been in. The good news is that he does not require surgery and the back can be rehabilitated with physical therapy. He's been working on the exercises and recently suffered a set back but we just happened to have a physical therapist visiting for a few weeks who helped get him back on course.

## New NILD student

Many thanks to those of you who have been praying for additional opportunities for Cathy to use her NILD training. God connected us with another family who has a daughter in need of the therapy and Cathy has been working with her since the new school year began.

Cathy is hoping to receive the next level of training this coming summer to be able to add some secondary campus students to the program.
